

I am opposed to allowing the expansion of LPFM stations, as I am provided a valuable service from K-LOVE radio. It is broadcast to Salt Lake City and the surrounding area on translators, and touches the lives of thousands of people who are searching for a relationship with Jesus. K-LOVE provides a needed public service to these people, and the community.

The potential for another type of LPFM station to 'bump' K-LOVE off the air in this area is a risk too great to take, and I believe that the influence of the wholesome values shown on this station are a much desired and needed by the community. Thank you for your time.
